SMARTEST RESELLERS KNOW SUCCESS IS IN THE CARDS

SMART resellers know Smart Cards are the physical and logical access credential of the future. SMARTER resellers have already learned what smart cards are, what they do, how they do it, how they drive compliance to standards, and why they need to be on top of this critical technology trend in 2011.

The SMARTEST resellers have discovered that Quintron's cross-platform, multi-control panel (Mercury, HID, DMP) AccessNsite Security System Software has the SMARTS to outperform all others when it comes to smart cards in physical and complimentary logical security applications.

Become the SMARTEST reseller today. Ensure success in the HSPD-12 security smart card game by applying for the **Quintron Resellers Program** at www.quintron.com/smartestreseller.
